About

Frontend Developer with professional experience building responsive web applications using React.js, Angular, JavaScript, and TypeScript. Experienced in creating reusable UI components, integrating APIs, implementing SEO-friendly frontend practices, and converting design systems into scalable interfaces. Focused on writing maintainable code and delivering high-performance user experiences across devices.

Skills

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript.

Frameworks & Libraries: React.js, Angular, Redux Toolkit, Tailwind CSS, Bootstrap, GSAP, React Router DOM, Swiper.js, Axios.

Tools & Platforms: Git, GitHub, VS Code, Netlify, Postman, Figma, CI/CD Pipelines.

Core Competencies: Responsive Web Design, REST API Integration, State Management, Cross-Browser Compatibility, Unit Testing.

Experience

1EQ Edutech Private Ltd. – Frontend Developer *June 2025 – Present*

- Architected and delivered production-grade React.js and Angular features across multiple core product modules while collaborating in Agile and Scrum development cycles with cross-functional teams.
- Owned end-to-end integration of RESTful APIs and third-party services, enabling real-time data workflows.
- Implemented advanced SEO techniques including structured metadata, semantic HTML5, and lazy loading.
- Maintained a shared library of 10+ reusable UI components that standardized design patterns and reduced development duplication across modules.

Krenai Private Ltd. – Frontend Developer (Internship) *Feb 2025 – June 2025*

- Translated 20+ Figma design screens into responsive Angular, HTML and CSS interfaces for client-facing web pages.
- Enforced adaptive layouts for desktop, tablet, and mobile breakpoints.
- Optimized frontend performance and ensured cross browser compatibility.
- Refined visual styling and spacing to maintain design consistency across screens.

Projects

BazaarWale - E-Commerce Web Application – *[Link]* *June 2025*

- **Tech Stack:** React.js, Redux Toolkit, React Router DOM, Tailwind CSS, Node.js, Express.js, Nodemailer.
- Built 15+ responsive storefront and checkout UI components for product browsing and purchasing workflows.
- Managed global state for cart and authentication using Redux Toolkit with persistent session handling.
- Configured backend with Node.js and Express.js; integrated Nodemailer for transactional email support.

Movies Hub – Movie Review Web Application – *[Link]* *Aug 2024*

- **Tech Stack:** React.js, JavaScript, Tailwind CSS, Bootstrap, TMDB API.
- Integrated 10+ TMDB API endpoints and features for movies, recommendations, trending, and related content.
- Added search with instant results, similar movie recommendations, and related content suggestions on each detail page.
- Applied smooth carousel navigation using Swiper.js for featured and trending sections, ensuring full responsiveness.

Education

- **MCA** (Master of Computer Applications) – Amity University Gurugram. *Aug 2023 – July 2025*

Extracurricular Activities

- **Participated in HackMor Hackathon –** Manav Rachna University (Secured 4th Position). *Oct 2024*

Certifications

- **DOEACC O'Level – NIELIT:** Focused on HTML, CSS, C language, and networking. *Feb 2022*
